

MARANATHA.PRO

SEO & Analytics Report

Analysis Period (30 days)

Jul 31, 2026 — Aug 29, 2026

Compared to: Jul 01, 2026 — Jul 30, 2026

Generated on August 30, 2026 at 07:00

Executive Summary

High-level overview of Maranatha.pro digital performance for the period **Jul 31, 2026** — **Aug 29, 2026**.

■ ■ Overall Health: Needs Attention

There are 9 areas requiring action this period. Addressing them will unlock growth.

■ Organic Clicks Growing

The site received 455 clicks from Google Search in the last 30 days — 17.3% more than the previous period. More people are finding Maranatha organically.

■ ■ Top Keyword

Your #1 traffic keyword is "how to clean quartzite countertops" — 6 clicks at Google position 5.6. This is on page 1 — keep it there.

■ Website Traffic Declined

Sessions dropped 2.7% vs the previous period (1,593 vs 1,638). Review if any marketing activities changed or if rankings were lost.

■ ■ Quick Win Available

141 keywords are just off page 1 of Google. Targeted content work on these could bring measurable new traffic within 30–60 days.

1. Search Console — Overview

Period: Jul 31, 2026 — Aug 29, 2026 vs Jul 01, 2026 — Jul 30, 2026

Metric	This Period	Prev Period	Change
Clicks	455	388	▲ 17.3%
Impressions	42946	81117	▼ 47.1%
CTR	1.06%	0.48%	▲ 120.8%
Avg Position	11.7	10.7	▲ 9.3%

■ Organic Clicks Growing

The site received 455 clicks from Google Search in the last 30 days — 17.3% more than the previous period. More people are finding Maranatha organically.

■ Visibility Declining

Google showed the site 47.1% fewer times than the previous period. Rankings may have dropped on key pages.

■ ■ Low Click-Through Rate

Only 1.06% of people who see Maranatha in Google results actually click. The industry average for local services is 3–6%. Improving page titles and meta descriptions could unlock significantly more free traffic.

■ Rankings Slipping

Average Google position dropped by 1.0 points (now 11.7). The site is appearing lower in search results than before — monitor closely.

2. Search Console — Queries

Period: Jul 31, 2026 — Aug 29, 2026 (30 days) | Brand queries (containing "maranatha") excluded from rankings below.

Top 20 Queries — Excluding Brand Name

Sorted by clicks. Brand queries removed.

#	Query	Clicks	Impressions	CTR	Position

5. Traffic & Engagement

Period: Jul 31, 2026 — Aug 29, 2026 vs Jul 01, 2026 — Jul 30, 2026

Metric	This Period	Prev Period	Change
Sessions	1593	1638	▼ 2.7%
Total Users	1269	1284	▼ 1.2%
New Users	1210	1243	▼ 2.7%
Engagement Rate	46.1%	48.2%	▼ 4.4%
Bounce Rate	53.9%	51.8%	▲ 4.1%

Traffic by Channel

Channel	Sessions	% of Total
Organic Search	720	45.1%
Direct	716	44.8%
Paid Search	103	6.4%
Referral	20	1.3%
Organic Social	19	1.2%
Unassigned	14	0.9%
Cross-network	3	0.2%
Paid Social	2	0.1%

Sessions by Device

Device	Sessions	% of Total
Desktop	975	61.3%
Mobile	601	37.8%
Tablet	15	0.9%

Bot & Unknown Traffic

GA4 automatically filters known bots. **Unassigned/Unknown sessions: 14 (0.9% of total)**. Direct traffic: 716 (44.8%). High direct + unassigned may indicate bot activity or dark social traffic.

■ Website Traffic Declined

Sessions dropped 2.7% vs the previous period (1,593 vs 1,638). Review if any marketing activities changed or if rankings were lost.

■ Average Engagement

Engagement rate of 46.1% is average. There is room to improve — stronger calls to action, clearer service pages, and faster load times typically increase this.

6. PageSpeed — Core Web Vitals

Mobile

Metric	Value	What it means
LCP (Largest Contentful Paint)	N/A	Time to render the largest element
CLS (Cumulative Layout Shift)	N/A	Visual stability score (lower = better)
TBT (Total Blocking Time)	N/A	Interactivity responsiveness
FCP (First Contentful Paint)	N/A	Time to first visible content

Desktop

Metric	Value	What it means
LCP (Largest Contentful Paint)	N/A	Time to render the largest element
CLS (Cumulative Layout Shift)	N/A	Visual stability score (lower = better)
TBT (Total Blocking Time)	N/A	Interactivity responsiveness
FCP (First Contentful Paint)	N/A	Time to first visible content

■ Critical: Mobile Site Speed

Mobile performance score: 0/100. Google considers anything below 50 as poor. A slow mobile site loses customers — studies show 53% of mobile users abandon a page that takes over 3 seconds to load. This is the highest priority technical fix.

■ Desktop Speed Below Standard

Desktop score: 0/100. Even on desktop the site loads slowly — likely caused by large images or unoptimized code.

■ SEO Technical Issues on Mobile

Mobile SEO score: 0/100. Technical SEO issues (missing tags, blocked resources) can directly prevent Google from ranking pages. An SEO audit is recommended.

7. Recommendations & Action Items

Based on data from Jul 31, 2026 — Aug 29, 2026. Priority actions to grow Maranatha's digital presence.

■ Visibility Declining

Google showed the site 47.1% fewer times than the previous period. Rankings may have dropped on key pages.

■ Rankings Slipping

Average Google position dropped by 1.0 points (now 11.7). The site is appearing lower in search results than before — monitor closely.

■ 123 Keywords with No Real Visibility

There are 123 keywords where Maranatha appears after page 3 (position 30+), representing 425 searches per month where the site is essentially invisible. These topics have confirmed demand — creating focused content for the top ones is a direct path to new traffic.

■ Website Traffic Declined

Sessions dropped 2.7% vs the previous period (1,593 vs 1,638). Review if any marketing activities changed or if rankings were lost.

■ Critical: Mobile Site Speed

Mobile performance score: 0/100. Google considers anything below 50 as poor. A slow mobile site loses customers — studies show 53% of mobile users abandon a page that takes over 3 seconds to load. This is the highest priority technical fix.

■ Low Click-Through Rate

Only 1.06% of people who see Maranatha in Google results actually click. The industry average for local services is 3–6%. Improving page titles and meta descriptions could unlock significantly more free traffic.

■ 141 Keywords Almost on Page 1

You have 141 keywords ranking between positions 10–20. These are your fastest growth opportunities — small content improvements can push them to page 1. Highest priority: "granite countertop colors" at position 10.1 (997 impressions).

■ Desktop Speed Below Standard

Desktop score: 0/100. Even on desktop the site loads slowly — likely caused by large images or unoptimized code.

■ SEO Technical Issues on Mobile

Mobile SEO score: 0/100. Technical SEO issues (missing tags, blocked resources) can directly prevent Google from ranking pages. An SEO audit is recommended.

■ Top Keyword

Your #1 traffic keyword is "how to clean quartzite countertops" — 6 clicks at Google position 5.6. This is on page 1 — keep it there.

■ Flooring Visibility

Maranatha ranks for 18 flooring-related searches. Top flooring keyword: "countertop laminate near me" at position 7 with 1 clicks. Page 1 — strong.

■ ■ Average Engagement

Engagement rate of 46.1% is average. There is room to improve — stronger calls to action, clearer service pages, and faster load times typically increase this.

■ Organic Clicks Growing

The site received 455 clicks from Google Search in the last 30 days — 17.3% more than the previous period. More people are finding Maranatha organically.
